

*“We listen to our customers for one reason to help them be successful because if they are, we are too...”*

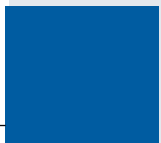

- QUALITY
- INNOVATION
- VALUE

**SANTEC GROUP**

“ FOCUSED TO ACHIEVE THE BEST ”

## Infrastructure & Facility

“ Excellent Equipments &  
Better Working  
Conditions Produce  
Excellent Products ”

Individuality, Precision, Perfection & efficiency are quality characteristics which cannot be purchased from anywhere. They have to be earned everyday. Based on this principle, SANTEC is developing machines since 1999 on a constant & consequent base & competence of its staff. Today, more than 100 skilled employees assure efficient & precision work on a total production area of approx. 5000 sq. meters.

## Message from CEO

First of all, I would like to express my sincere appreciation for your continuous support to SANTEC. Thanks for your encouragement. SANTEC has been able to fulfill its social responsibility as the leading manufacturer & exporter of hydraulic presses, Rubber & Plastic Machines, Scrap Balers, etc. in India.

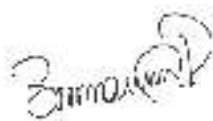

Quality signifies a long service life, reliability, durability & safety. We guarantee that you obtain this quality from 'SANTEC' because of our strict inspections throughout the design & production sequence & during the acceptance test.

Responsibility lies with us from the planning stage until the machine has been erected & commissioned at your company. We at 'SANTEC' are fully conscious of our responsibility & assure you full value of the money invested on our machine. We believe in 100% Customer satisfaction policy & if any equipment does not work upto the customer's satisfaction level, we simply refund 100% amount to the customer & take back the equipment to our premises. So, while dealing with us, you get full value of your hardearned money.

I am particularly proud of the services here at SANTEC, as we understand the importance of customers having peace of mind & never need to worry about the risk of unpredictable break down. Today, we have our sales & service agencies in 30 countries across the world. That's the reason our valued customers throughout the world value not only the quality & performance of SANTEC machines but also the quality of service which matches the high level of all other performances, truly reflecting our motto **MAXIMUM PERFORMANCE THROUGH MAXIMUM CO-OPERATION.**

At last, all our employees, including myself, are committed in doing our best to serve the best machinery to all our customers. I give my sincere thanks once again...

“ Yes, all SANTEC machines/ equipments are designed & produced with one aim.....to give you the optimum product & to help your business grow. At 'SANTEC' we continuously work to find out the best for our valued customers & on this we don't compromise ”

U. K. SANGAL  
C. E. O

## History & Milestones

- 1999 March Establishment of 'SANTEC' by Mr. U.K. SANGAL as a trading organization for hydraulic cylinders, power pack units & small capacity presses.
- 1999 October Purchased a small workshop at outer skirts of Delhi (Village Ranholla, Delhi).
- 1999 December Received Govt. Import Export Code (IEC) license from Indian Govt. to start Export of Hydraulic Presses & Rubber Machinery.
- 2000 March First Export Consignment dispatched to Sri Lanka.
- 2000 August Shifted to a bigger workshop in Mundka, Delhi, to meet the demand of customers all over the Globe.
- 2000-2001 Successfully commissioned one complete Rubber parts manufacturing plant in Sri Lanka.
- 2002 September Received "International Trophy for Quality" Award from France.
- 2003 Achieved 50% of the turnover by export to 10 countries.  
Received membership of EEPC, Govt of India.
- 2004 Achieved 60% of the turnover by Export to 20 countries.  
Received membership of AIRIA (All India Rubber Industries Association).
- 2005 A new production unit started to cater the customer's demand.  
Agents in more than 30 countries appointed.
- 2006 Membership of CII (Confederation of Indian Industries) received.
- 2007 Declared as Export Oriented Unit (EOU) by Govt. of India.  
New manufacturing unit is established in Mundka with State-of-the-art manufacturing facilities.
- 2008 Received ISO-9001 Certification.

## Diverse Markets Specialized Solutions...

Today, SANTEC serves a diverse range of both domestic & global industries. Our strength lies in the specialisation & expertise applied to each segment.

SANTEC offers a focussed approach in each area of our business. Knowledge & expertise coupled with innovative thinking & the latest processes & technologies ensure that the company can solve the specific needs of each industry in the most cost effective manner.

SANTEC is capable enough to provide the best, innovative, cost effective solution for all industries: -

**Automotive, Defence, Earth Moving, Plyboard, Scrap, Textiles, Railways, Laboratories, Scrap Processing Industries etc.**

“ One thing you will not find  
in our machines &  
equipments...  
COMPROMISE...  
in Quality ”

Solution

## The whole Truth...

SANTECs vision is to deliver best quality & extra value that meets & exceeds the customer expectations by leveraging knowledge, experience, technology refinement, best practice processes-people & innovation in our machines/equipments to occupy a pre-eminent position in worldwide machinery industry.

“ We differentiate ourselves from our competitors through our efforts on Quality, Innovation & Better Satisfy our customer's needs. ”

Commencing in 1999 as a small but efficient manufacturer of all kind of Hydraulic Presses, Rubber & Plastic Machines, Scrap Balers etc, today SANTEC has reached to a new height & become a major manufacturer of special Hydraulic Presses, Rubber & Plastic Machinery, Scrap Balers, Hydraulic Cylinders, special purpose machinery etc. in global market. Today SANTEC machines are exported to 35 countries across the globe.

Our technical expertise, customer-responsive service & commitment to continuous improvement, backed with sustained investment will ensure that SANTEC's reputation for reliable, high quality, Innovative machines will continue in decades to come...

That's the truth about SANTEC, the whole truth...

## Quality, Innovation & Value Three Drivers of Growth & Success...

“ We set the standards for  
Hydraulics & Polymer  
Machinery manufacturing  
Industry ”

SANTEC strictly believes that the world today revolves around quality thinking, quality practice & quality implementation. Quality is the master key to fight with global competition. SANTEC believe in following eight dimensions of quality: -

- Performance
- Features
- Reliability
- Conformance to the requirement of application
- Durability
- Serviceability
- Aesthetics
- Perceived Quality

# Range of Product

Hy. Press - 20 tons (down stroking)

C - Frame press

C - Type press

Hy. Press for carpet forming

Hy. Press for roof lining

“ High Degree of Reliability & Performance ”

Lab. Type mixing mill

Hy. Press for trimming

Dispersion kneader

Hy. C Press with guide pillars

Lab. Press-20 tons capacity

“ Wide range of models with International Quality at Indian Prices... ”

Hy. Press

**Pressbrake & shearing machine**

**Scrap baler**

**SMC/DMC/bekallite  
moulding press**

**Solid tyres moulding press**

**Scrap baler -vertical type**

**Large platen SMC and  
DMC moulding press**

**Melamine moulding press**

**Transfer moulding press**

**Vacuum compression moulding press  
with sliding out & tilting arrangement**

## Global Presence...

Presently, in more than 35 countries across the globe, SANTEC has appointed agents responsible to provide better & prompt after sales services to the customers. SANTEC is now making arrangements of warehousing in different countries to keep the stock of some of the most popular machines & their spares in countries for fast delivery of machines to our valued customers...

# Technical, Design and Service Support

To satisfy the requirement of the customer common planning right from the beginning is important. Our technicians & engineers do their utmost to advise the customer at any time. We make the final product to the expected level of our customer through mutual discussions with the customer & by continuous improvement... **we make the product better.**

THE CUSTOMER'S SUCCESS IS OUR SUCCESS TOO...

In order to establish long term commercial relationship with our customers, we provide excellent after sales services , while maintaining a comprehensive backup of spares & services...

“ Customer Satisfaction  
is our ultimate aim... ”

# Management Principle

1. **Quality Policy:** - We aim to achieve & sustain excellence in all our activities

- A) We are committed to total customer satisfaction by providing products & services at best possible rates, which should meet or exceed the customer's expectation.
- B) Modernization stress on technological innovation & training of employees at all levels shall be a continuous process.
- C) A motivated work force with a sense of pride in the organization shall lead us towards total quality.

Our philosophy is long-term relationship with our customers & suppliers, because we believe that the key to lasting success is the formation of long-term partnership with both clients & suppliers.

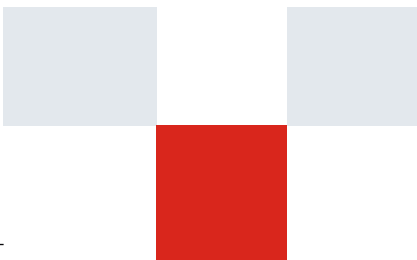

2. **VISION:** SANTEC will be the customer-preferred machinery & plant supplier in the years to come, through speedy innovations, continuous improvement in quality & processes, strategic partnerships & unmatched customer services.

3. **MISSION:** SANTEC is a team of dedicated individuals who share commitment to attaining world class performance in customer services, product design & manufacturing. We will be the leading, growing supplier of industrial machinery/equipments & plants for the global industries.

We will make the quality of life for our employees the best & provide superior financial performance within SANTEC...

“ Skilled work force is necessary to manage work within the planned time ”

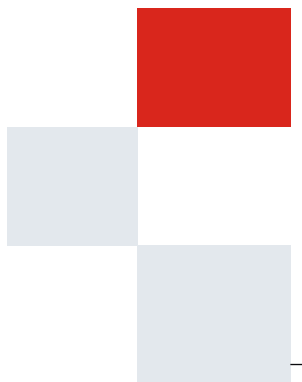

“ Our suppliers & sub  
contractors are our  
biggest assets ”

## Our Associates

- PLC & Process Control Instruments: - Omron, Mitsubishi, Zefran (Italy), Novotechnic, Honeywell, Danfoss
- Hydraulic Valves: - Rexroth, Polyhydron, Yuken
- Hydraulic Pumps: - Danison, Polyhydron, Dowty, Mico-Bosch
- Electricals used in Panel: - Telemecanique (Schneider), Siemens, L & T
- Electric Motors: - ABB, Siemens, New India
- M.S. Plates: - Sail, Bokaro Steel Plant
- PID temp. Controllers: - FUJI, Japan
- Pressure Transmitter: - Zefran, Danfoss
- LVDT: - Zefran, Novotechnic
- Photo Safety Guard: - Sick, Orbital, P & F, Banner
- Hydraulic Seals :- Parker, Hallite, Economos, Technolon
- Tower Light:- Hanyoung , Korea

“ We put the client and his needs first ”
